**HBO 3** Blagdanska čarolija, drama  
18:05 20:00

U filmu Melody Gerard, radoholičarka zaposlena u maloprodajnom konglomeratu, sretna je što provodi praznike sa svojim pomodarskim prijateljicama. Međutim čeka je neugodno iznenađenje kada je šef pošalje u njezin uspavani rodni grad kako bi uvjerila nevoljne građane da im dopuste izgraditi novi diskont. Prisiljena je povezati se s obitelji i ljubavi iz djetinjstva Carterom McClureom, a njezin zadatak nije tako jednostavan jer se svi protive svemu što Melodyna kompanija

It's like a "mashup generator", but you have full control and can tweak every single part. Do you think these tools have made you a better worker? Let us know in the comments! Tyler is a freelance writer based out of Orlando, Florida. He loves traveling and video games and when he's not doing one or the other, you can probably find him watching a cooking show. Republish this article for free in your blog or newsletter, or for a fee to include a hyperlink to this article on your site.

Q: Javascript image class output I am having a difficult time figuring out the logic of this particular bit of JS. I want to be able to do this: ...and have the output be the the images: Is there some sort of loop that I can use to loop through all the classes and then spit out the next-named image? A: Try this: `var classes = new Array("gallery","gallery2","gallery3","gallery4"); var i = 0; for(;i+classes[i]+ ""); } you can substitute the document.write with any other way you want to add the images`

EDIT: The real answer to your question, though, is to use `document.write` and let the browser handle the creation of the `img` tag. If you use the above, you're just creating the tags for yourself, which isn't exactly what you want. Doing it the browser's way allows the browser to add the class names in the tag automatically.

Q: How to send RMI object to remote server using Java 82157476af
